

## Mailinglists - Archive - Collected Posts

All posts that have been exchanged via Sympa are found, organized by month (top right panel), in the archive. They can be deleted by the list owner and the respective sender only.

Arrangement is either **chronological** or by topic ("thread"), i.e. the **subject line** with the black arrows can be scrolled.

Full text search covers the entire archive; with "**advanced search**" you can narrow the scope of your search.
